ACT-SO Winners

Afro-Academic Cultural Technological and Scientific Olympics or better known as ACT-SO, is a major project of the NAACP. ACT-SO is an avenue used by black youths to develop excellence in academics and cultural pursuits. As a result of this program, two young people from Tacoma will be competing in Denver next week in the annual academic olympic competition in the areas of arts and humanities and Sciences.

Tacoma Police Dept. 'Deadly Force Review Board'

The Tacoma Police Department's newly formed "Use of Deadly Force Review Board," which is made up of department personnel holding the rank of Lieutenant or above, has completed its review of the circumstances surrounding an incident in which an officer discharged his service revolver. The Board's findings were that Police Patrol Officer Douglas W. Stirret acted within the scope of his duties under State Law and the more restrictive policies and procedures as established by the department with respect to the use of potentially lethal force.

At 1:19 a.m., the morning of Saturday, June 13 of this year, Officer Stirret and his partner responded to a stabbing at a South Tacoma Way tavern. While searching for the suspect on foot in the alleyway at the rear of the nightspot, a witness identified the suspect as the driver of an auto which was speeding towards them. The officer ordered the driver to stop. At that point, the vehicle swerved towards Stirret and the witness. They attempted to avoid being run over. The witness jumped clear, Officer Stirret was struck on the left leg by the auto and as he was spun around he fired once at the driver in an effort to prevent being run over.

The bullet was stopped by the driver's wing window frame shattering the glass. The auto was extensively damaged after it veered past him and struck a utility pole. The suspect was arrested at the scene for felonious assault. The officer, suspect and stabbing victim were all treated at local hospitals and released.

The purpose of the newly formed Board is to review the police investigation and independent Inspection Unit inquiry into a police shooting, or the use of other potential lethal force. Additionally, the Board, which is chaired by Assistant Chief Amundsen, is charged with reporting their findings which may identify training needs or corrective discipline.

Other Board members include the Captain of the Criminal Investigation Division, Captain of the Patrol Division, Captain of Administrative Support Division and the Patrol Lieutenant on duty at the time of a particular use of force incident.

Chief W. W. Perrett established the administrative review process, which closely resembles those currently in use by other law enforcement agencies to ensure that these incidents are closely scrutinized. Hopefully, the review process will identify those police procedures or techniques which place officers in jeopardy and result in corrective steps being taken through procedural change or specialized training.

A View From Capitol Hill

An Independent Reports on Washington
By Gus Savage
Member of Congress

Reapportionment is a political reality that confronts Members of the House of Representatives and their constituents every 10 years. Because of the length of time involved, we tend to forget how important redistricting is and what it means not only during the 10-year period at hand but often for decades to come.

The U.S Constitution requires each State's legislature to redraw its congressional district boundaries every 10 years. This is to keep all districts equal, according to growth and shifts of population revealed by the latest decennial census.

When the population figures and the number of Representatives to which the State is entitled are transmitted to the State's executive, the State has the duty to redistrict. In most States this duty is carried out by the State legislatures. However, regardless of the procedure used, the Federal courts step in if the process becomes deadlocked.

With this mandatory requirement to redistrict often arises various schemes to draw argbitrary boundary lines to determine the configuration of the congressional districts. This monster that rears its ugly head is called gerrymandering. In practice gerrymandering is any excessive manipulation of a legislative district to benefit particular persons or parties. Gerrymandering gets its name from former Massachusetts Governor Elbridge Gerry and referred to an oddly-shaped district carved out in Essex County in 1812.

In my own State of Illinois, maps have been developed by two groups, the Independent Voters of Illinois and the Political Action Conference of Illinois, which smack of gerrymandering in its most blatant form. They violate the following principles that should be uppermost in the minds of all Blacks concerned about fairness in the political process. °No map should be gerrymandered or designed to lessen the likelihood of

Citizen Participation Sought By Gardner

Five Pierce County Boards, Committees and Commissions have vacancies to be filled. County Executive, Booth Gardner, who under the new charter selects the membership, subject to Council approval, announced today that he will open up the selection process and is encouraging Pierce County citizens to become involved in their local government.

Vacancies exist or soon will, on the Library District Board, Private Industry Council, and the Administrative Boards for Developmental Disabilities and Mental Health. The Boards for Drug Abuse and Alcholism are being combined into a single Chemical Dependency Administrative Board.

Application forms are available through the Office of the County Executive, 593-4415 and are to be returned by July 10, 1981.

When vacancies are to occur on any additional groups requiring citizen participation, notice will be provided to the public through the media and to any requesting organizations, said Gardner. There are at present approximately forty additional boards, Committees and Councils of record.

There Is Such A Thing As A Free Lunch!

For the fourth consecutive year, the Pierce County Community Action Agency will be sponsoring the Summer Food Service Program for children. According to their agreement with the U.S. Department of Agriculture, the federal agency which funds the program, the Community Action Agency will provide free lunches throughout the summer to youth under 19 yrs. who live in the Tacoma area.

The purpose is not just to provide a meal to a child who might otherwise go without, but also to offer an education on nutrition and its importance for a strong body and mind. In short, the program is an extension of the School Lunch Program, where nutritionally balanced meals are professionally designed by full-time cooks and prepared daily for the children's consumption. Besides directly benefiting the children with nutritional meals, the Summer Food Service Program offers jobs to underprivileged youth, through Manpower, in preparation of the meals. The process begins at a kitchen fa-

Major Change In Driving License

OLYMPIA - Anyone issued a driver license prior to June 30, 1981 will receive one good for two year. However, starting July 1, 1981 the Department of Licensing will begin to implement a law passed by the 1981 Legislature changing the need to renew driver licenses from once every two years to once every four years.

In order to minimize inconvenience to the motoring public, Department of Licensing Director John Gonsalez announced today that the changeover will be made in two stages:

Stage 1: If you are renewing your license on July 1 or after, and if your birthdate falls on an odd-numbered day of any month (e.g., 1st, 3rd, 5th, etc.) you pay the regular $7.00 fee and receive a license good for two years. If you were born on an even-numbered day of the month (2nd, 4th, 6th, etc.) you pay $14.00 and will receive a license valid for four years. All original licenses issued after July 1, 1981 will expire on the driver's fourth birthday after issuance. The first period may be less than four years.

Stage 2: In 1983, when those drivers with two-year licenses need to renew, those licenses will be good for four years.

"Once the changeover is complete," said Gonsalex, "all Washington's drivers will be spared the inconvenience of the two-year renewal, without an increase in the renewal fee." The basic seven dollar renewal fee remains the same, but instead of seven dollars for two years, drivers will pay fourteen dollars for four years.

It is anticipated that long waiting lines will be substantially reduced and overload pressures in high-volume driver license examining offices will be relieved.

The department will continue to mail drivers a customary reminder notice 60 days prior to license expiration. However, it will arrive in the form of a post card instead of the perforated form used in the past. This change is a minor detail but it will save the state over $65,000 per year.

Gonsalex concluded with a reminder that all drivers are legally required to keep their current address on file with the department. According to state law, drivers must notify the Department of Licensing within 10 days of an address change or a legal change of name.

PUBLIC NOTICE

Beginning Wednesday morning, June 24, 1981, South "K" Street from Division Avenue to South 25th Street will be converted to a two-way Street.

Atlantic Crisis Update

CAROLINE MCNEAL

Wayne B. Williams, age 23, a freelance Black photographer, has been taken from his home where he resides with his retired parents. The FBI has: searched his home, given him three lie detector tests, taken clothing of his in bags, along with carpet fibers...had a hearing to determine if the evidence is conclusive.

All this led up to "nothing."

It was obvious considering they claimed they saw him throw something into the river and waited two days to see what it was. My question is, If lawmen and the FBI were keeping close surveillance, "why the question as to what was thrown into the river?" It would take a bit of time to handle an adult dead body, transfer it from one location to another, and throw it into a river. It couldn't be thrown in like a pebble.. Let us pray for justice. God's justice. Not man's justice.

This Country is finally going the way of other Western nations, The multi party system is a reality if not a fact. I keep getting literature from the Conservative, Liberals, Moderates, Socialist, Poor People Party, Republicans, Democrats, Blacks for Democratic Action Christians United, Women United, and the Communist. What makes this a fact is that these people tend to vote their philosphies and they vote as a block.

Where as, we were once issue oriented as a nation, we are now hung up on idealogies, watch the budget debate!! The alignment is between the haves and the have nots. The gray areas are becoming clearly defined black and white. Race is a secondary issue in this redistribution of the wealth.

As I see it the 60's and 70's made too many folk middle class. The middle class was never meant to be large portion of the citizenry. They were to be a 5.7% buffer between the rich and the poor. Someone to keep the "American dream" alive. Remember split level house (mortgage) 2 cars in the garage, a dog, 2 1/2 children, off to the office to work (not the factory or daywork), a t.v. with recorder and a 3 week paid vacation. Too many have reached that plateau. Along comes the equalizer, poverty, or should I say borderline, working poor. Then the wealth will be redistributed according to the master plan.

The President (Reagan) and the Supreme Court. Lord Have Mercy!!! Justice Potter, the only one young enough and moderate enough to remain quits!!

How's this for a job announcement: Pay 2,579,00 to 3,257 per month QUALIFICATIONS: Eight (8) years of progressively responsible supervising experience in a transit system, graduation from a standard high school (or G.E.D.), supplemented by college-level courses in public or business adm: or an equivalent combination of exp. & tr.

This shows what a company can do when they want to encourage upward mobility. They can tailor a job description to fit anybody. I am watching this one, because for a similar position at that pay range, put out to the public, companies usually want at least one college degree and tons of experience!!! They can screen you out and/or screen you in.

Booth Gardner put out the call for citizens to sign up for the advisory committees. Vacancies are open on the CETA private industry council (7) Chemical Dependency Admin. Board (5), Developmental Disabilities Adm Bd. (5-10) Library Dist Board of Trustees (1) Mental Health Adm. Board (5).

Willie's HAIR FACTS

Willie Smith

What makes your hair and complexion appear healthy? There are a few important factors that contribute to the way you physically look. Let's discuss this in the column and see if we concur.

There are many negative "happenings" going on in the world today. In many ways we, as individuals, are losing control. At the present time the economy is shot; people are out of work; terroism is increasing; it is not safe for grownups or children to be on the streets; and many of the same hates and fears are still with us all.

All of the above seem so much more important than to be concerned with our appearance, but you know there has to be light at the end of the tunnel. If we approach each day in a more positive manner it will get better. It is a proven fact. Consequently when you, as an individual, start each day as this your emotional make-up, tensions, general unhappiness will change. When this begins to happen the outward signs will begin to change also.

Another important factor, besides this emotional aspect, is your physical well being. Are you eating properly? Hair and skin are what your body makes. Good diet and health. Hair and skin need a healthy diet. Fish, lean meat, eggs, cheese, peas and beans, fruits and vegetables, nuts, margarine, butter, sugar, honey, wheat, corn, rye, and especially water. The above foods provide the necessary body-builders, roughage, energy foods, fats, carbohydrates and sugars.

If you have had a serious illness; had a short stay in the hospital; on drugs and me...ations; not getting enough sleep. All these can affect your hair and skin.

I realize that our lives seem to go through many cycles-as does the world situation. Each of us can do our part starting from the time we get up in the morning. Cleanliness, a good diet, exercise will only help us to be more positive. People will begin to notice you on the street because there is that charisma that radiates from you. Your hair is cut in the latest style; your complexion looks great; and your body is intune with your mind. People can't help but notice that smile.

My next column will be dealing mainly with cleansing of the hair and skin. There seems to be a product on the market for about everything now days. I will be participating with skin care specialists on July 11 from 11:00 a.m. to 4:00 p.m. for you to come to the store and talk to us about skin care, make-up, and the latest hair fashions. Please bring your friends. I will be anxious to meet you.

Willie Smith can be found at Frederick & Nelson in the Villa Plaza. He comes from Seattle specializing in hair care, cuts, colors, designer curls, California curls, wigs and make up. Look for him bi-monthly bringing you the latest news in beauty care.

In the meantime, if you have been experimenting on your hair and don't quite know what to do, call Willie or one of the HAIR CRISIS specialists below:

Jean Watley's Who's Who

Supposedly its all over for many of our young people who have recently graduated from school. But the job has just begun for they are now entering the real world that will soon prove to be more challenging than those school walls of which they attended.

Is anybody interested? Fletcher Jenkins has always been one who has taken an interest in the young people today. He sees these them as the future and reminds us that"we have a responsibility to stimulate and motivate and even push our youth to the point where they do not become complacent and continue to reach out for the best in life and not just be satisfied with the average things in life".

Jenkins is presently working for the Tacoma School District No. 10 as Transportation Supervisor, however, his job has not limited his activities from the betterment of our young people.

Jenkins attributes his own successes to those people who took their time and energies to give him the guidance he needed through his young life. He says, "We must get involved in the future of these youth to help insure a more happy and prosperous life to come.

FLetcher Jenkins

Jenkins is the proud father of two daughters, Solonia and Lavada and a son, Fletcher Jr., who is presently a music major student at the University of Washington and he also plays on the U.W. Husky football team as defensive lineman. Jenkins and his wife, Izetta, have enjoyed a married of 23 years.

Jenkins has served in the capacity as member of the Tacoma Park Board Committee, Pierce County for the Youth, Director for the Downtown Tacoma Boys Club and Camp Director for the Boys Club. He has coached the little league baseball and football team and participated with many other community groups in the Hilltop area.

We appreciate you Fletcher Jenkins and thank you for your fine example for us adults to follow.

Cont'd from pg 1 A View from Capitol Hill:

three Blacks being elected to Congress from Chicago again, for this would be undemocratic and a step backward. "No map should put residences of any two of Chicago's three black Members of Congress into the same district. This would unnecessarily divide the black community. Divide and conquer is a tactic we should all recognize at this juncture in our political history. "No map should extend any of Chicago's predominantly black districts into the suburbs. This, too, is unnecessary and elsewhere has been the illegal though traditional means of curbing natural and fair increases in black political representation. Since the passage of the Voting Rights Bill, this has been a common practice in the South.

While circumstances might cause the above principles to alter somewhat, generally they are applicable to every large urban area in the Nation in which there is a large concentration of black citizens.

Based on the 1980 census, Sunbelt and western States win the redistricting sweepstakes: Florida stands to gain four seats while Texas will pick up three, and there is a possibility for Blacks to gain seats in both States; Arizona, California, Oregon, Tennessee, and Utah will gain one seat each. The major losers will be from the snowbelt and eastern States: New York will probably lose five seats; Illinois, Ohio, and Pennsylvania, two; Indiana, Maryland, Massachusetts, Michigan, Missouri, and New Jersey, one each.

"A LEGENDARY STORY"

As I think back on Major League Baseball before Jackie Robinson broke the color line, we black players had white heroes. My favorites were in the National League, Dizzy Dean, of the St. Louis Cardinals, Mel Ott and Bill Terry of the nowdefunct New York Giants.

The story goes, Dizzy Dean was pitching, Mel Ott was in the batters box, Tony Lazzeri was on third base, Bill Terry, who had been the last National League player to bat over an average of 400%, was now managing the New York Giants.

Dizzy Dean took a stretch to hold the runner near third and pitch to the plate. The umpire yells strike one!! Dizzy, repeats the pitch, the umpire yells strike two!! Meanwhile Tony was dancing up and down the line near third base. Dizzy Dean took his stretch and threw to third base and Mell Ott took a swing as if the ball had been thrown to homeplate. The umpire yells strike three!! Bill Terry, the manager, charged out of the dugout and yelled to Mel Ott what the... were you swinging at. You didn't see anything. Mel Ott calmly retorted back, sorry Bill, I didn't see the other two either.

Black Members could be affected in at least three of these States: Illinois, Michigan, and Missouri.

If the potential for black political power was not diluted through gerrymandering and other tricks, there is no question that we would have black Members from Louisiana, Mississippi, South Carolina, and other States based on population.

Therefore, reapportionment is a matter of grave concern for Blacks if we are to hold on to the gains we have made in congressional seats. Moreover, if we are to make further gains, we must guard against efforts to put one Black against another--whether such efforts come from within or from outside.

We must be diligent and stand together in this important struggle.

PNWB Emergency Use For Children

Pacific Northwest Bell is making available a program for adults to use in teaching children how to use the telephone in an emergency.

Called "Emergency," the program includes a 10-minute color film as well as other informational materials.

A Bell System study found that children up to third grade level do not know how to use the telephone, according to Joycelyn Dixon, PNB's educational relations coordinator. She added that the program attempts to remedy that situation.

Dixon said the program is being widely used by parent-school organizations in the Atlanta, Georgia area, which has been the scene of recent crimes against children.

Organizations such as PTA's, Scout groups, day care centers, and pre-schools may arrange for the materials to present the program by calling Joycelyn Dixon in Seattle, toll-free, on 1-345-8883.

Souls A' Fire, a summer music ministry group from Tulsa, Oklahoma, will be appearing at Vocational Baptist Church, 1810 Tacoma Avenue South on Monday and Tuesday, June 29 and 30.

On July 2nd, Souls A" Fire will also be in concert at Bethlehem Baptist Church, 1725 South I Street.

Souls A' Fire, directed by Kevin Moore, is a 9-member group -- whose purpose is to "set the world on fire" for Christ.

They will be traveling to several states this summer up and down the west coast ministering in song and word. Souls A' Fire is one of seven music groups being sent out by Oral Roberts University (ORU) this summer. Todd Pettygrove, a 1980 ORU graduate, is director of the music ministry program at the University.

Oral Roberts University is a private, non-denomination liberal arts institution which opened in 1965.

Low-Cost Home Weatherization

The two-session, two-hour workshops are free and will emphasize practical and easy ways to save energy in the home.

Annette Batdorf, Education Coordinator for the Department of Public Utilities, will demonstrate weatherstripping and caulking, and discuss the cost-effectiveness of insulation, window coverings and electrical appliances.

Information on sources of weatherization assistance, loans and tax credits will also be available.

The workshops will be held at the following times and locations: June 23 and 24, 7:00 p.m. to 9:00 p.m. - Marymount, 423-152nd East, June 30 and July 1, 1:00 p.m. to 3 p.m. - Spanaway Lutheran Church, 16001 "A" Street, July 7 and 8, 1:00 p.m. to 3:00 p.m. - Spanaway Multi-Service/Senior Center, 226 - 166th St.

Ollie Taylor's Blessings Boulevard

UPDATE:
I greet you in the name of Jesus Christ; and to everyone out in radio land. An update on the current status on 1250 radio formally called KYAC, now called KKFX (K-FOX). Since my last article on the temporary format change for all religious programming on the new station, which was preempted and moved to different time schedules, I was informed that it would only take two and possibly three weeks for this transition period to settle, since then I have been informed that "Blessings Boulevard will remain on the air at the same time given by K-FOX 65:00 a.m. until 7:30 a.m. afterwhich the hour of victor will be on at 7:30 a.m. until 8:00 a.m. the Mt: Zion Broadcast can still be heard Sunday nites between the hours of 10:30 p.m. until 11:30 p.m. and Warieth D. Muhammed can be heard between 11:30 p.m. until 12:00 midnite. However, I have also been informed that in order for Blessings Boulevard to remain on the air and grow, it must have sponsors, as I receive more information form the general manager: Mr. John Hawkins I will keep you abrest on the programming. If you have any comments in regards you may address them to the new address of Blessings Boulevard. C/O Sis: Ollie Taylor, 1400 -- 31st Ave. So., Seattle, 98144. (your brief announcements and prayer request and there reader writes also may be sent to the same address).
ANNOUNCEMENT from Formal Manager, General: Mr. Wayne Parks of KYAC:
Who encourages everyone to send as many letters as possible in support of KYAC's formal programming in the most recent past. You may send those letters to Media Support Systems., P.O. Box 2471. Seattle, WA. 98111. Attention Mr. Wayne Parks
A READER WRITES:
Dear Sis: Taylor, I would like to know when Blessings Boulevard will come back on the air and Mt: Zions program will it go back to the regular hours? I am very concerned because of all the sick and shut ins that are in the hospitals who have nothing to look forward to on Sundays but the gospel over the radio.
COMMENT
As of June 7th, I was informed that all religious programming is still under surveying and that blessings boulevard will have to obtain sponsers in order for it to continue in the spot set that it currently has, 6:00 a.m. until 7:30 a.m. Preparations at this time are being made possible for the program to remain on the air, but at this particular time it cannot be determined if it will go beyond 7:30 a.m.

Until next weeks, God bless you and keep you in his care.

The 565 Broadway Ballroom was the setting recently of the wedding reception for Miss Harryette J. Jeffries and Mr. Vernon E. Flunder.

In private ceremonies attended by families of both the bride and groom, the couple was married by the Rev. E.S. Brazill in Shiloh Baptist Church. Special guest was the brides grandmother Mrs. Eula Lynch of Tacoma.

The bride is the daughter of Mrs. Ruth Jeffries of Tacoma and the late Harry Jeffries. Mrs. Doris Carter, of Tacoma and Admiral G. Flunder of Kansas, KS are the bridegroom's parents.

The bride wore a late afternoon white chiffon dress and carried a bouquet of long stem maroon roses and baby's breath held together with maroon and pink ribbons. Her jewels were diamond earrings, gift from the groom and a string of add a pearl necklace, a gift at birth from her aunt Mrs. James (Mary) Harrison.

Attending the couple were Ms. Marcia L. Giger and Admiral D. Flunder, Jr., brother of the groom.

Mrs. Flunder attended Pomona College in Claremont, CA and is employed by Pacific Northwest Bell in Seattle, WA. Her husband is a graduate of Stadium High School and Washington State University and is employed at Pacific Northwest Bell, Tacoma.

Immediately following the ceremony, the bride's mother hosted the reception for approximately 300 guests.

The bride's colors of maroon and pink were used throughout the room on tables with white covering, maroon and pink carnations, and white candles encased in hurricane lamps.

White table cloths covered the serving tables that were centered with spring flowers and an arrangement of burgandy and pink ribbons flanked by silver candelabra holding white tapers and the three tiered wedding cake.

Music for dancing was provided by Kevin Carrere.

Upon their return from a wedding trip to Canada, the couple will live in Tacoma.

Not only is graduation a big day for teenagers and adults, it is a very special time for the little ones as they donned caps and gowns to walk down the aisle of Miles CME Church.

As each child walked up to receive diplomas from directress Mrs. Alenda Dallas there were big smiles on their faces. Each child gave Mrs. Dallas a big hug and kiss, then had to walk over to Mrs. Hockett so the mortarboard could be replace as it had fallen from his/her head during the big hug.

Each child received a diploma and a framed color picture.

Graduating to 1st Grade were Michael Hankins, Christara Mustin, Larry May, Ja'uana Glenn, Antohony Dozier, Sameul Keller, and Michael Wood Kizer.

A reception was afterward for parents, visitors and students.

COMMENTARY by Dwayne Tyson

Is black radio dead in Seattle? If so, wha would those of us who enjoy soul oriented radio do were the situation to be revived from its current state...the state of being off the air?

Far be it for me to provide answers to th proceeding questions, because those of you have pondered same have already drawn yo conclusions.

However, let it be understood, that businesses need businesses in order for businesses to survive: soul radio in Seattle did not have the business of business.

The following diagram illustrates what is needed in order to keep businesses which serve a particular communities interest from going, if you will, belly up.

Major elements for business & survival. 1. product or services; 2. advertising medium; 3. consumers.

The lines in this illustration are separate elements that must be harmoniously connected and continuous in order to maintain any business enity.

In short, support for those who support that which is of interest to you and me is of the utmost importance. Next week's question...What Black business is next?
